New Oliver No. 5

Sets Swiftest Pace Ever Known in Typewriter Selling.

The wonderful new model Oliver No. 5, has taken the market by storm. Its reception by the public has exceeded in enthusiasm anything we had dared to anticipate.

Employers and stenographers alike have welcomed it as the one machine that answers the multiplied need of the hour.

The cry is for Speed! Speed! Speed!—and the Oliver responds.

The demand for Durability is filled by the sturdy, steel-clad Oliver.

To a call for a writing machine that will do many things and do each of them equally well, the Oliver answers with its unexampled versatility.

Its visible writing saves the strain on eye and brain.

Its legibility lends beauty to its work. The letters that bear the Oliver imprint are the letters that seem to speak.

Oliver No. 5 fairly bristles with new and exclusive time-saving features. We have space to mention only a few of the more important ones.

Disappearing Indicator shows exact printing point.

Balance Shifting Mechanism saves operative effort.

Line Ruling Device is fine for tabulated work.

Double Release doubles convenience.

Non-Vibrating Base insures stability. Yet with all of these added improvements, we have still further simplified the Oliver by fusing brains with metal.

Oliver No. 5 is a dream come true—the dream of Thomas Oliver crystallized into this wonderful mechanism of shining steel that embodies every possible requirement of a perfect writing machine.

Rheumatism

I have found a tried and tested cure for Rheumatism. Not a remedy that will straighten the distorted limbs of chronic arthritic, nor cure the gnawing back to back aches. That is impossible. But I can now surely kill the pains and pangs of this terrible disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, I uniformly cure all curable cases of this horrid, much dreaded disease. Those said the granular wastes, found in Rheumatic blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, what dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

Wasting Letters.

We have only a few letters in the alphabet, yet many persist in wasting them. Here comes M. Ffeuron, Mr. Lloyd, Mr. Brent, Mr. Llewellyn, Mr. Percy, Mr. Willcocks, Mr. Hammorslight, Mr. Mavgonnigale, Mr. Macrae, Miss Carrollyne Welles, Miss Pneu-lande, Georges Kheller, etc.—N. Y. Press.

Men Past Sixty in Danger.

More than half mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Dr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years although I am now 91 years old."

Revelations of Color.

Colors tell a tale. Feminine lugubry shows a painful affection for musty blacks, for sickly fawns and greasy grays. Those of overflowing vitality, on the other hand, love bright colors—orange, scarlet and blue. People of amiable, but rather indefinite character, show a decided preference for pale shadowy shades—pale-blue, pale-pink, white or cream.—Gentlewoman, London.

Don't Put Off

until tomorrow what you can do today. If you are suffering from a torpid liver, or constipation, don't wait until tomorrow to get help. Buy a bottle of Herbine and get that liver working right. Promptness about health saves many sick spells. "Mrs. Ida Gresham, Point, Tex., writes: I used Herbine in my family for six years, and find it does all I claim to do."

Not for Hans.

Hans came in from his ranch to buy a horse. "I've got the very thing you want," said Ike Bergman; "it's a fine road horse, five years old, sound as a quail, \$175 cash down, and he goes ten miles without stopping." Hans threw up his hands in protest. "Not for me," he said—"not for me. I wouldn't gift you five cents for him. I live eight miles out, and I'd half to walk back two miles."

Constipation causes headache, nausea, dizziness, languor heart palpitation. Drastic physics gripes, sicken, weaken the bowels and don't cure. Doan's Regulae act gently and cure constipation. 25 cents. Ask your druggists.

Work of Humorous Mason.

In Lichfield (Eng.) cathedral the central pillar of the chapter-house and the clustered shafts and vaulting ribs which spread from it are very fine specimens of early English work. One of the pillars contains the quaint design of a cat with a mouse in its mouth. It is supposed to have been executed in a humorous spirit by one of the masons, who, so far as the stone permitted, made it quite realistic.

No Will and No Way.

Folks as have no mind to be o' use have always the luck to be out o' the road when there's anything to be done.—George Elliot.

THE SLEEPING SICKNESS WHICH MEANS DEATH

How many readers have heard of this terrible disease? It prevails in that far-away country—Africa—especially the Congo district. It is caused by the bite of the tsetse fly. When it bites a person, the sleeping symptoms begin and finally the sufferer sleeps until death occurs.

Contrast this with the peaceful, balmy sleep of health. Is there anything more wearing than to lie awake at night, tossing about, nervous, with cold feet, hot head and merry knows what else? Short of letting the tsetse fly bite us we would do almost anything for relief. How can we prevent it? Mr. George Hayes, of Union City, Pa., writes: "I had lost my appetite, was all run-down, could not sleep nights. I had tried everything without relief. Vinol was recommended, and to my surprise, it helped me at once; gave me a splendid appetite, and now I sleep soundly."

What Vinol did for Mr. Hayes, it will do for every run-down, nervous and overworked person who cannot sleep.

Conservation.

The resources of the earth are the basis of our national wealth. By means of them alone, in material things, comes leadership among the nations. The conservation movement now fully under way embraces the forest movement as one of its sources and great divisions. Thus the cause of forest conservation throughout the country has won a powerful ally and a more effective support for the work that lies just before us.—Gifford Pinchot in New England Magazine.

The Secret of Long Life.

A French scientist has discovered one secret of long life. His method deals with the blood. But long ago millions of Americans have proved Electric Bitters prolongs life and makes it worth living. It purifies, enriches and vitalizes the blood, rebuilds wasted nerve cells, restores life and tone to the entire system. It's a godsend to weak, debilitated people. "Kidney trouble had blighted my life for months," writes W. M. Sherman of Cushing, Mo., "but Electric Bitters cured me entirely."

NER OF MORGAN

METEORIC CAREER OF NEW MEMBER OF BANKING FIRM.

Why Famous Financier Has Chosen Henry P. Davison for an Aid—Success Won by Energy, Integrity and Brains.

New York.—Among the men who have won their way to fortune and a commanding place in the financial world will have to be written the name of Henry P. Davison, late vice-president of the First National bank, but who on January 1 became a partner in the banking house of J. P. Morgan & Co.

To men of finance the name of Henry P. Davison is very familiar, and stands for all that goes to make up the successful banker and man of affairs, for although but 41 years of age, Davison has made himself felt as a power in the money world.

Henry P. Davison is strictly a self-made man. Every dollar he possesses he made from the raw material of energy, hard work, application, honesty and quick intelligence. When about 19 years ago he came to New York from Bridgeport, Conn., he was merely a bright, active, enthusiastic young fellow, who had had a little experience as a bank clerk in his native town of Troy, Pa., and in Bridgeport. He had a few hundred dollars, but his real capital was in his head.

The little money he had then cannot be considered as even the nucleus of the fortune he has acquired since, for Mr. Davison does not owe his success to frugality and saving; he owes it to keen business foresight and knowledge of finance, and to the confidence of moneyed men he has won.

He was born in Troy, Pa., a little town near the northern border of the

HENRY P. DAVISON

state, not very far from Elmira, N. Y. His father was a business man, and his uncles were the local bankers. Young Davison was graduated from the Troy high school at the age of 15 years, and when he was 16 he was teaching school, having in his class some boys older than himself.

He kept at this work for a term or two, and then entered his uncle's bank as a clerk. There he got a fairly good knowledge of the banking business and widened his acquaintance so that in a year or so he got an offer of a bookkeeping position from the Poquonock National bank, of Bridgeport, Conn.

He gave perfect satisfaction there, but he himself was not satisfied, for he wanted to get into the larger game and become a New York banking man. So he sought and obtained a position in the Astor Place bank in this city. He was only 22 years old, but he soon became receiving teller.

The Astor Place bank became a branch of the Corn Exchange bank and Davison went to the Liberty National and in six years worked up from one position to another until he became president of that institution. He resigned to become vice-president of the First National, and he has held that important position for six years, taking ever a more and more active and prominent part in general banking affairs and having his advice more and more sought by the big men of the financial world.

During the business depression and financial disturbances last year Mr. Davison was a member of the special clearing house committee which made a searching investigation into the affairs of many financial institutions, and he took part in all the important meetings of the big men of Wall street, notably those called by J. Pierpont Morgan.

Mr. Davison is also what President Roosevelt would call an outdoor man. He is fond of all athletic sports, is a good shot, good rider, good billiard player. What he does he does with all his heart, and he displays the same energy in his amusements as in his business.

He is younger looking than he is, although his smooth-shaven face has a serious cast. His rather determined mouth still shows the humor his more intimate friends know him to possess in large measure.

And J. Pierpont Morgan, as keen a judge of men as may be, having watched Mr. Davison's career and studied his character and methods closely for years, has chosen him for a partner in his big banking house. To Wall street men that is the highest endorsement which could be given, for they know that it would not be obtained save by the display of ability which but few men possess.
